## GROUPS

A morning or afternoon DIASPORA GARDENS farm visit is guided by farmer/artist/educator Regina Laroche. The session includes a farm introduction, storytelling, garden art projects, hands-on learning, and preparation (and consumption!) of a garden-based snack.

"The best program of the summer."

- M.I. Rec Program Director

## FAMILIES

A day/night farm visit includes three hours of garden and story/arts experience; a campfire or grilled meal with family-harvested ingredients; camp lodging; and a farm-based breakfast and morning animal interactions.

"...a rich and authentic experience of small scale sustainable agriculture, music, storytelling, island camping & generous hospitality. We are so grateful to have connection with DIASPORA GARDENS. The children said we should visit Regina and Jeff on Madeline Island every summer!" - The Tacheny Family
